The PANAMA MASSACRE.

Report of the U. S. Commissioner, A. C. Corwin, Eng.—Proposed to take Possession of the Isth- mus.

[Special Dispatch to the N. Y. Times.]

WASHINGTON, Sept. 21.

I am able to send you particulars of the Report of Mr. Corwin, the Special Commissioner sent out by the Government to inquire into the circumstances of the Panama massacre.

His report is very voluminous, embracing all the testimony taken by him while on the isthmus.

It is addressed to the Secretary of State, and is now on file in the State Department.

Mr. Corwin states that the riot was com- menced by a colored native who fired a pistol at an American master, who fired back at him.

The unbroken attack upon the railroad depot, and the firing upon the passengers, was in par- ticular a storm deliberately formed in advance, in which the authorities of Panama were actively concerned—the police being parties to the plot—and that the dispute with the passengers was merely used as a pretence for commencing the riot.

He states also that the military Authorities of Panama failed utterly in their duty—that they connived at the attack of the police and mob upon the station-house—and were themselves to a very great extent responsible for the massacre.

At the conclusion of the whole matter Mr. Cor- wine reports that the Government of New Granada has given up all idea of an independent and erratic course in the protection of passengers and property crossing the isthmus. He refers to a variety of incidents within the past few years to sustain his position.

He also recommends THE IMMEDIATE OC- CUPATION OF THE Isthmus, FROM OCEAN TO OCEAN, by the United States, absolutely no re- servation for the purpose of securing our safety and tranquility to the transit, unless New Granada, after the proper representations shall have been made, and the necessary demand made upon her, in pursuance of treaty stipulations, can satisfy us as to her ability and inclination to afford the proper protection, and make speedy and ample atonement for the wrongs inflicted upon our countrymen by the people and officials of the State of Panama.

THE NEXT STEP.—Hon. Humphrey Marshall having said before a public meeting of his fellow citizens that "he would not give the two of copper for a choice between Buchanan and Fremont," we presume his next step will be to declare, in the language used by the editor of the Journal some time since, that "all men have a right to liberty, no matter what color."

GO AND SEE THE BOOMERS.—The Democratic Union Club of New Albany, Indiana, in view of the Democrats of Louisville to a mass convention at that place, on Friday, the 26th. Distinguished speakers will be there, among whom are Pugh, Woolley, Preston, Willard, Wright and Pedit. It will be one of those monster gatherings now so common in the free State.

A BEAUTIFUL SIGHT.—There were over two thousand children in attendance at Beale's Arc- tic Panorama yesterday.

THE grand jury of Staunton, Virginia, recently found a true bill against the postmaster of that village for circulating and delivering to subscribers copies of the New York Tribune, an affidavit having been previously made by a Mr. George Slocum that the journal in question was an abolition document.

FRANCIS NEFFERAT.—Hon. Humphrey Mar- shall and Hon. John Minor Botts seem to under- stand each other. They both occupy almost the same identical position in this cause, although the latter, bold as he is, is not bold enough to come out quite as plainly as Mr. Marshall. The latter, in his speech at Lexington the other day, exhibited his Free Soil predictions by declaring that between Fremont and Buchanan he would not give the two of a copper for choice. Mr. Botts, in his speech at Richmond, Va., a few days since, ventured to say thus much:

"I shall support the man that will represent my principles, and that in my judgment will most advance the general great interests of the entire country, and leave the responsibility to those who choose to cast their votes for either of the other candidates. One thing, however, I will say, that whatever we may be compelled, we cannot be worsted by any change from Democracy."

Mrs. BUCHANAN IN ENGLAND.

Mr. DALLAS AT THE CUTLER FEAST.—The annual banquet of "The ancient Corporation of the Cutlers of Hallamshire," held at Sheffield on the inauguration of the Master Cutler, the one selected for the present year is Mr. George Wolsteholm, is always an occasion of great interest. This year Mr. Dallas, the American Minister, was present, and we give the speech in which his health was proposed, and his exceedingly happy reply:

The Master Cutler said—Sheffield now realizes an honor which she has never known. I allude to the presence here of his excellency the Hon. Mr. Dallas, the representative in England of the United States. (Loud cheers.) I find that my election is signalized by his visit, an event under present circumstances peculiarly gratifying. What is it, my lords and gentlemen? That the American party has won the field. (Applause.) The people of both countries it would rather feast together than fight with each other? (Loud cheers.) The people and the statesmen of this country denounce such a war. The press, the statesmen, and the intelligent people of America equally depurate. To the people of both countries it would be a most honourable and creditable act to contemplate. It is a fact which promises a bold assertion for this locality. It is a bold declaration for my locality. It is a bold declaration for my country. It is a bold declaration for my nation. It is a bold declaration for my race. It is a bold declaration for my religion. It is a bold declaration for my God. (Applause.)

JOB PRINTING.

The proprietors of the Daily Louisville Times having recently *reduced* and greatly *enlarged* their job printing facilities, invite the patronage of the public.

MERCANTILE, STEAMBOAT, SHOW, POST- TER and other printing done in a superior man- ner, with great expedition, and at the lowest rates.

We invite all who desire work done to call,
and examine our facilities and specimens.

We have experienced workmen employed, and
warrant all work to go entire satisfaction.

Thanks to our ever attentive friend W.
A. Putnam for Cincinnati papers.

The post office at Fishback's, in Clarke
county, Ky., will be discontinued from and after
the first day of October next.

David Lawrence was up before Judge
Johnson yesterday morning for drunkenness and
disorderly conduct. He was held to bail in \$200
for three months.

A wagon loaded with hay turned over at
the corner of Third and Market street yesterday
afternoon. The hay was spilled all around, the
horses got tangled up, and the driver badly
frightened. All was righted in half-hour.

A Mass Meeting of the Democracy will
be held at Mt. Sterling, Ky., on the 8th of Octo-
ber. Arrangements have been made to enter-
tain a large assembly, and a number of able
speakers have promised to present.

Wm. Sutherland, better known as "Sugar
Stick No. 2," was tried yesterday morning for
stealing a coat, pair of pants and some money
from a steamboat man at Cairo. The pants and
coat were found in Sutherland's possession.

He was locked up for sixty days, to await a re-
sension from the Governor of Illinois.

In noticing in our columns, a few morn-
ings since, the improvements on the corner of
Main and Sixth streets, we stated that the second
house would be occupied by Nockland, Hughe &
Co. This was an error. There is no such firm
in this city. The firm of Hughes & Hutchinson
will occupy the house spoken of—one of our
largest and most respectable wholesale houses.

Prof. Ellis and Golding design giving
a series of concerts at Histrionic Hall in a
few days. These gentlemen are both blind and
stand in need of assistance. They come to us
highly recommended by several of the citizens
of Memphis. The entertainment will consist of
vocal and instrumental music by Prof. Ellis,
and lectures in Phrenology by Prof. Golding.

We bespeak for them the patronage of our
citizens.

New Music.—Our young friend Will A. Coles
presented us yesterday with a copy of the
"Adieu Polka," by Miss L. Gross. This beau-
tiful piece of music is dedicated to Miss Adele
Casey, of New Orleans. It is published by Tripp & Cragg.

Facts for the People.

Facts are stubborn things and the most in-
tense, unchangeable kinds of facts, are those that
are substantiated by the unerring, unbiased
and disinterested testimony of thousands of
intelligent, reliable, honest, upright persons, and
it is a well established fact that such proof is ad-
duced sufficient to make manifest the fact that
Porter's Oriental Life Liniment is a safe and val-
uable remedy.

It is a fact that the Oriental Life Liniment will
afford great relief in Rheumatism, and when per-
served in effects a permanent cure.

It is a fact that the Oriental Life Liniment pos-
sesses great power in reducing swellings.

It is a fact that the Oriental Life Liniment is
stimulating and penetrating, and when applied
to diseased flesh strengthens the capillary sys-
tem and causes a healthy reaction.

Another fact is that the Oriental Life Liniment is
the best known remedy for bruises, cuts, old
sores, sprains, &c., and it is a fact it should
be kept constantly on hand by every family, so
as to have convenient in case of accidents.

YOUNG LADIES' DEMOCRATIC ASSOCIATION.—The
following complimentary resolution was passed
by the above association, at their meeting yes-
terday afternoon:

Resolved, That the Young Ladies' Democratic
Association do hereby tender their sincere thanks
to Capt. Keating, for the much admired and
beautiful artistic display he made in painting their
Banner—complimentary to him and his wife
and to all gratifying to them. Also to the
Times, Democrat and Courier papers, for the
very liberal aid tendered. Also, Chas. German
and others for their labors so liberally bestowed
on the presentation of said Banner.

A GOOD INVESTMENT.—A company of enterpris-
ing men are about starting a new business in
this city, which it is supposed will very greatly
increase the value of real estate and railroad
stock in this and the neighboring States. This
establishment will give employment to a great
number of hands, and an immense amount of
capital, (variously estimated at from \$1 to \$15.)
